**Please sign up for the meeting via Google Forms [Here](#).** Alternatively, you may call (302-598-0086) or email ([marianne731@gmail.com](mailto:marianne731@gmail.com)) MariAnne Davis. Be sure to leave your name, company affiliation, and dinner price category if staying for dinner.

**Please RSVP by Friday, October 6.** If you arrive late, the main gate may be closed, in which case you should use the side entrance.

**Closed toe shoes and long pants required. Those with pacemakers should not attend.  
Climbing of stairs is involved. No photography inside the MRF. Hardhat, safety glasses and  
safety vest will be provided.**

### **Abstract**

No, we're not talking trash; we're talking recycling! What happens to many materials after they have served their useful life? Maybe they can have a second life! Are all plastics recyclable? What do those numbers on the bottom of plastic containers mean? How do they recycle electronics? How do they separate austenitic stainless steel from copper? Come to our tour and maybe these and other questions can be answered!
